Mr. Lawrence D. Miles
Manager-Value Analysis Service Section
General Electric Co.
Schenectady, New York

Dear Mr. Miles:

As program director for the Mass. North Shore Chapter of N.A.C.A. I want to personally thank you for the excellent talk you gave on March 20 before our organization. Your consideration of our postponement, and your eventual attendance at our meeting was most appreciated.

I have heard many favorable comments about your talk from those present. One comment in particular was often heard, i.e., "I wish my boss could have heard him" or "My purchasing agent would have enjoyed this talk".

The number of questions asked you from the floor and after the meeting was evidence of the interest in your subject. If Ray Jordan hadn't pulled you away, Mr. Miles, you would have been there yet.

Good luck, and thanks again for one of the most successful meetings our Chapter has had.

Very truly yours,

Owen H. Curtis
Program Director
Mass. North Shore Chapter
N.A.C.A.
