Alumni dues \$5.00 per year

(Your dues make this publication possible—
Have we received your check?)

5. The Dean of the Medical School.

6. The President of the University.

The stated purposes of the Association are to "support and render service to The University of Wisconsin Medical School and offer a medium through which Alumni can contribute to its welfare; to encourage professional and scientific progress in the field of medicine and to promote free and friendly social and professional relationships among the graduates of the Medical School."

An informed, participating Alumni body is essential to the accomplishment of these ends. Thus we have our annual Alumni Day, regional meetings, the library campaign, the Newsletter. This is why the council of class representatives has been formed—to provide you with further opportunity to participate, to have a voice in Alumni affairs.

If we will accept no less than excellence from our school, we have an obligation to help provide the climate—the loyalty and support—necessary to nurture that desired excellence.

Prospects For Building

An anxiety neurosis afflicts your Library Fund Committee. They display the classic signs and symptoms of the syndrome. Torn between two mutually attractive goals they pay the price of ambivalence.

They expected to break ground this spring—to build as much of a library as the money at hand would permit. Plans are drawn, the site assigned, preliminary studies completed and the library is needed NOW.

However, their zeal to move rapidly ahead is tempered by the knowledge that a brief delay may allow us to double our building funds—to build the complete library.

We shall know the fate of our requests for matching money within a few months—meanwhile we must do more than mark time. This support is not assured. Alumni gifts will determine when the library can be built. Your additional contributions will insure that even without matching funds we will have a library of which we can be proud.

Make your checks payable to the William S. Middleton Library Fund and send them to 418 N. Randall Ave., Madison, Wis. Pledges are payable over three years and all gifts are tax deductible.

Who Is An Alumnus?

Each time we make a general mailing to the Alumni body we receive a number of letters from perplexed or even irritated men. For various reasons they disclaim membership in the Alumni Association and may deny that they are Alumni.

Here is why we claim you as an Alumnus and why our association exists:

The code of by-laws of the Medical Alumni Association provides that active members may be:

1. A graduate of The University of Wisconsin Medical School.
2. Persons holding the degree of Doctor of Medicine who have successfully completed at least two years as a student at the University of Wisconsin Medical School.
3. Persons who have served a period as interns or residents at The University Hospitals of the University of Wisconsin.
4. Any professor, lecturer, demonstrator or instructor in The University of Wisconsin Medical School.

Medical Alumni Citation

Dr. Milton Senn

An internationally distinguished Pediatrician-Psychiatrist, **Dr. Milton Senn**, Director Child Study Center and Sterling Professor of Pediatrics and Psychiatry, Yale University School of Medicine will receive the Medical Alumni Citation for 1961.

The award, the third to be presented by the Alumni Association, honors a Wisconsin Medical Alumnus for "achievements in the practice of medicine, in academic activities and in research accomplishments."

A native son of Milwaukee, Dr. Senn received his B.A. degree in 1925 and was a member of the first class to receive an M.D. degree at the University of Wisconsin, the class of 1927.

The award will be presented at the

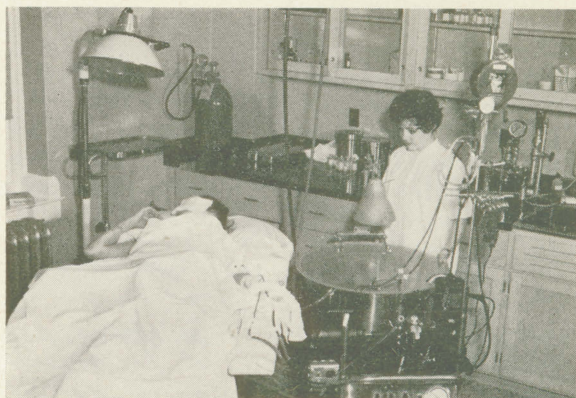

Alumni Banquet, May 19, and is given in recognition of 25 years of outstanding achievements as a teacher and investigator in the field of child care and development. As Director of the Yale Child Study Center since 1948, Dr. Senn has suc-

cessfully interpreted medical psychology and psychiatry to all psychiatric-physicians and has pioneered in fostering research in child psychiatry as a basic science for child care practices. His early research in nutrition of infants and children, and in the blood chemistry of the newborn baby, has been widely published in Medical Journals. A leading authority on the behavior of infants, children and adolescents, and personality development, he is one of the contributors to Nelson's Textbook of Pediatrics.

In addition to the Medical Alumni Citation, Dr. Senn has received an honorary M.A. degree from Yale in 1948 and a citation from Washington University in St. Louis for contributing to the development of that University's child psychiatry program. He has also served as President of the American Psychosomatic Society.

In 1959 the Alumni Association honored one of the nation's foremost surgeons, **Dr. Leland McKittrick**, and in 1910 **Dr. Richard W. Telinde**, an internationally known gynecologist.

Artificial Kidney Unit At University Hospitals

Patient undergoing Extracorporeal Hemodialysis in the new Artificial Kidney Unit at University Hospitals.

An Artificial Kidney Unit (more properly designated an Extracorporeal Hemodialysis Unit) has recently been established at the University Hospitals and operates under the supervision of the Department of Medicine. University Hospitals has provided the special equipment and extensive remodeling necessary for this facility. The Oscar Rennebohm Foundation provided the funds to purchase the artificial kidney unit and other instruments and equipment required for this procedure.

The Unit is operated under the supervision of **Dr. A. B. Weinstein**, '44, Assistant Professor of Medicine.

Award and Scholarship Gifts

A gift establishing the Cora M. and Edward J. Van Liere Award was recently received by the Medical School. Dr. Van Liere, received a B.S. degree from the University in 1916 and a M.S. in 1917. He then went on to Harvard for his M.D. degree. He is Professor of Physiology and Emeritus Dean of West Virginia University Medical School at Morgantown. The award will be given annually to the senior student with the highest scholastic achievement during the four-year medical course. It is a personal gift of Dr. Van Liere, including an amount from the estate of his late sister, Cora.

A gift of \$16,000 from the Avalon Foundation of New York City, will be used as an "unrestricted supplement to the scholarship fund at the Medical School." The non-refundable scholarship aid will be granted to students on a combined basis of financial needs and scholarship attainment.

A Special Invitation to Pre-Alumni Day Activities

Class representatives, board members and honored reunioning classes, and wives have been invited to attend an enjoyable evening of Pre-Alumni Day activity in Madison, Thursday, May 18. Two important Alumni programs are being initiated and a definite schedule of events planned to serve as a pleasant prelude to Alumni Day.

For your information the evening schedule is listed below.

At Holiday Inn—4402 E. Washington Ave.
5:00 p.m. First Meeting of Council of Class Representatives

6:00 p.m. Joint Cocktail Hour for Class Representatives, Honored Reunioning Classes, Board of Directors and wives.

7:00 p.m. Past President's Dinner
Ladies' Dinner and Entertainment.

At The Embers—3520 E. Washington Ave.
The Reunioning Classes of 1931, 1936, 1941 and 1951 will hold their individual Class Dinners.

Cocktail Hour at 7:00 p.m., followed by Dinner at 8:00 p.m.

First Meeting of the Council of Class Representatives.

With the acceptance of **William Konnak**, '32, **Judah Zizmor**, '34, and **Irving Moskowitz**, '52, the roster of the Council of Class Representatives is complete. All class representatives and board members are urged to attend this first meeting—a most significant development in the continuing growth and vigor of our Association.

Past Presidents' Dinner

Class representatives and board members will gather to honor the men most responsible for the success of the Medical Alumni Association. Our first president, **Ken Lemmer**, '30, will preside.

Ladies' Dinner and Entertainment

Mrs. Kenneth Lemmer is handling arrangements for the Ladies' Dinner to be held simultaneously with the Past Presidents' Dinner. All Alumni wives are invited to attend. A good travel movie and movie style show in color and sound will be shown, after which the women can talk and get acquainted and disperse at their leisure.

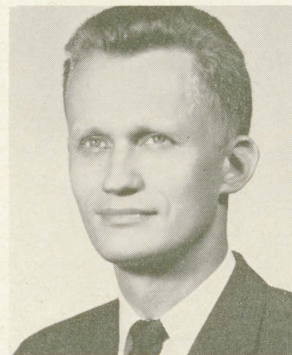

Class Reunion Dinners

Drs. Thomas Leonard, **Harold Younggreen** and co-chairmen **John Allen** and

Robert Samp, are all busy planning class reunions. All classes have agreed to hold individual dinners at The Embers, but the type of entertainment varies.

The schedule will permit the class representatives to attend the Council Meeting, all reunioning class members can attend the joint cocktail hour and the wives can participate in the ladies' dinner while the class reunion dinners are being held.

Medical Missionary Reports on Madagascar

Dr. Alf Borge, '52 who became a medical missionary to Madagascar in 1956, returned to Madison one year ago for a residency at Madison General Hospital. He and his family plan to return to Madagascar in June for another five-year period, so

we asked for his comments on the practice of medicine in a foreign land. The following are his comments.

"Concerning Madagascar, or properly The Malagassy Republic, it is completing its first year of complete independence with a good record of stability and progress. The government is cooperative and encouraging toward mission work such as ours, particularly the educational and medical aspects.

"Before returning to the U.S. on leave, I was in charge of the surgical work in a 50 bed hospital in the Southern part of Madagascar near Fort Dauphin. The work load was terrific with no other surgeon for a distance of 350 miles. Medical care is much appreciated by the Malagassy but only a fraction of the necessary care can be given.

"There are innumerable interesting aspects to my work there—the presence of rare or unusual diseases, the rarity of diseases common here such as arteriosclerosis and appendicitis and the variation in incidence of various malignant diseases. The collection of statistical data on incidence of disease and cause of death will be a major project for my next term.

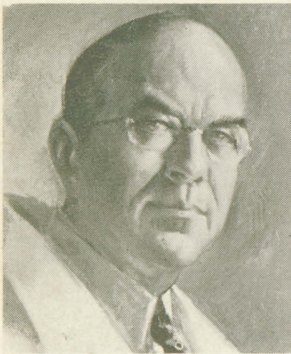

"There is no lack of major challenging problems relating to the prevention and treatment of diseases, only a lack of time, energy and resources."

*"... and gladly wolde he lerne
and gladly teche"*—Chaucer

The Wisconsin Medical Alumni Association is justifiably proud of this year's recipient of the Emeritus Faculty Award, **Dr. Paul F. Clark**, Emeritus Professor of Medical Microbiology.

There is no one title to describe the various careers of Dr. Clark—teacher, bacteriologist, scholar, author, investigator—all the hats fit. Having come to the University of Wisconsin from the Rockefeller Institute in 1914 to direct the medical microbiology program, Dr. Clark was an active participant during a period when the many discoveries and achievements established the framework of microbiology of today.

Over the years, he has published with his students scientific articles in microbiology, especially poliomyelitis, a disease he became much interested in through association with Dr. Simon Flexner, noted bacteriologist and first Director of the Rockefeller Institute. His published works include also "Alice in Virusland," a whimsical, philosophical address as President of the Society of American Bacteriologists and "Memorable Days in Medicine" — a calendar of Biology and Medicine, Alice Schiedt Clark, co-author.

Retirement in 1952 meant an end of teaching and administrative responsibility but not of work in the laboratory and interest in bacteriology. A recently published book "Pioneer Microbiologists of America," attests Dr. Clark's high degree of knowledge in this field. The book, a history of early American microbiology, "traces the most important work done in the field during its foundation and combines biographical insight with careful microbiological history, and research care tinged in parts with restrained humor."

Dr. Clark has other interests not connected with bacteriology or medicine. He paints, plays the cello, and "bird-watches." Another facet of his personality and that of his wife, is their desire to combine travel with learning. The Clarks have studied

and traveled in Belgium, the British Isles, France, Germany, Italy, Switzerland, and in Greece, and 700 miles up the Nile.

Because of his belief in the value of experimental research work in the education of medical students, in 1956, he established the Theobald Smith Award consisting of a prize of \$100 and a bronze medalion bearing a head of Theobald Smith which is awarded to that medical student who has completed an outstanding experimental paper in one of the many fields in which Theobald Smith worked.

As long-time Chairman of the Library Committee, he directed the affairs of the Medical Library before a Medical Librarian was employed. For many years Mrs. Clark, a trained librarian, voluntarily instructed medical students in the use of the library. Dr. Clark has taken great interest in the Library Fund Campaign, contributing early and often and making many helpful suggestions to the Fund Committee.

Perhaps the highest honor for faculty "orators" is to be named speaker at the University Honors Convocation. At the time of his retirement in 1952, Dr. Clark was so honored. In the course of his address, entitled "Vision," he referred to himself as an academic grandfather and quoted an Irish folk saying "20 years a'growing, 20 years in blossom, 20 years a'stooping, 20 years declining." We take exception to this statement—Dr. Paul Franklin Clark is currently in the second age bracket.

Field Day—1961

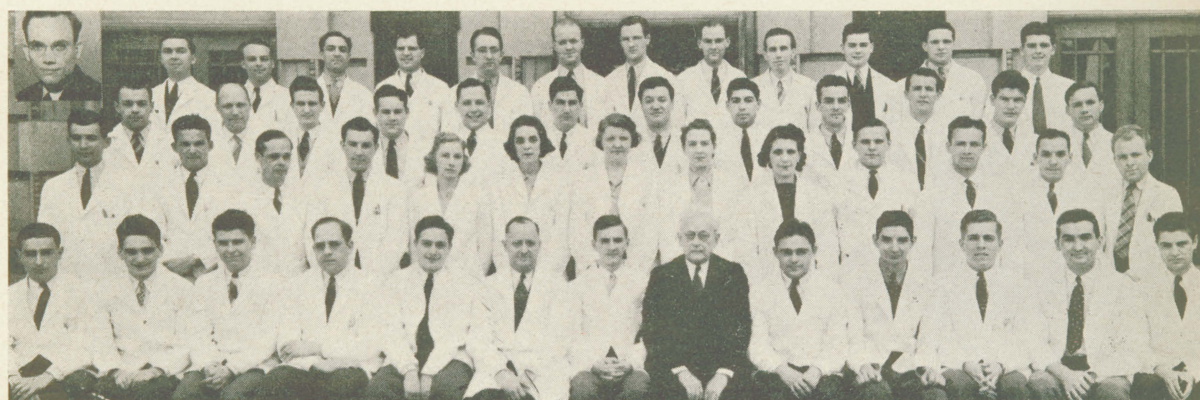

A new format of closer student-faculty contact was planned for this year's annual Field Day. The Student-Faculty Committee changed the evening program to be a strictly Medical School affair. A Student-Faculty dinner followed by the Junior Skits was held at The Chanticleer.

The day's program was highlighted by an address "The Role of the Federal Government in Medical Education" by **Dr. Ward Darley**, Executive Director of the Association of American Medical Colleges.

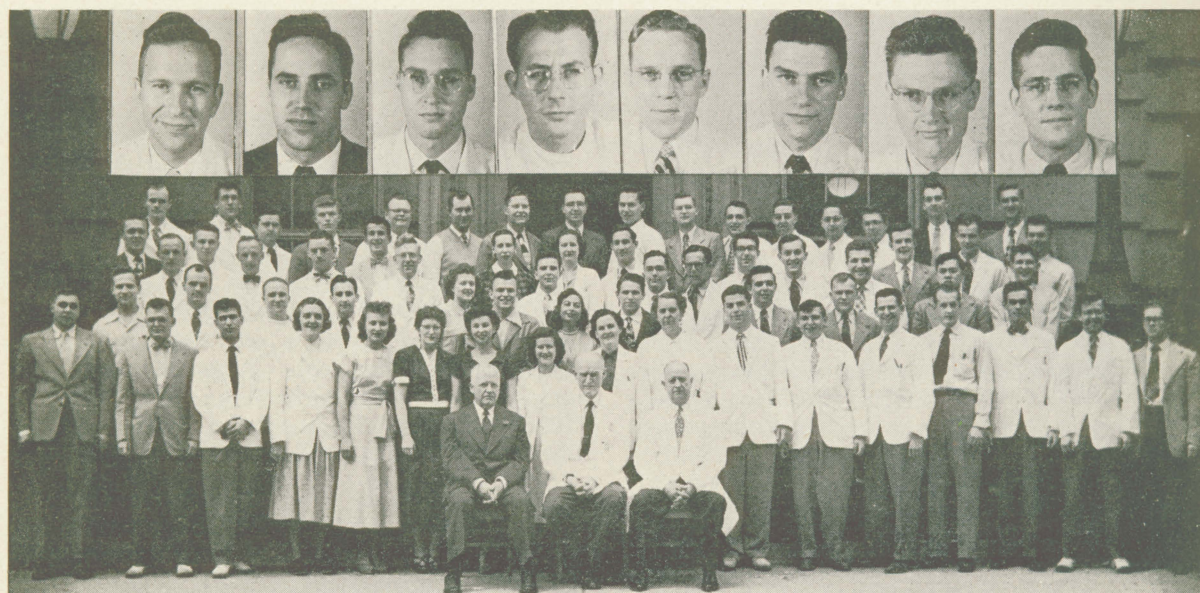

In addition to the reports on research projects, the presentation of awards and the tours and exhibits, short reports on foreign scholarships in Peru, Panama and Guatemala were presented by those senior students who participated.

Legends for Class Pictures

Class of 1931

Top row (L. to R.): Harwood Stowe, Owen Clark, Edgar Huth, Emmett Ackermann, Eugene Lange, Claude Grant, Dr. Schmidt, Horace Hansen, Paul Schmiedicks, Alban Overgard, Arthur Stehr, Willard Wall, Frank McCarthy, Charlson Frick.

Second row (L. to R.): Earl Hicks, Lawrence Fitchett, Elmer Bartolaet, Thomas Burden Leif Lokvam, Kenneth Schmidt, Herbert Granzo, Russell Morrison, Ronald Martin, Byron Hughes, John Owen, Everett Lochen, Leland Pomainville, Emmett Meili, David Cole.

Third row from top (L. to R.): George Maloof, John Booher, Thomas Leonard, Harmon Hull, Frank Treskow, Harry Feldman, James Casey, Dr. Evans, Floyd Litzen, Clement Cheli, Franklin Meister, Norman Thomas, Oscar Rosenow, John Decker.

Bottom Row: May Davies, Addie Schwittay, Alton Schmitt, Alice Watts, and Carol Rice. Absent: Mrs. Emma Kyhos.

Class of 1941

Top row (L. to R.): Charles McKeown, Carl Ender, Albert Kuritz, Edward Shrigley, William Cheeseman, Harold Ellingson, George Martin, William Young, Rovelie Allen, Charles Morris, Paul Reinsch, Robert Randolph.

Second row: Willis Graemer, Elmer Debus, Francis Larme, Russell Lewis, Norvan Gordon, Franklin Kapke, Joel Taxman, Sidney Hulbert, Farrell Golden, Edward Perry, Clifford Hogenston, O. Sidney Orth.

Third row: Jack Clifford, Willis Murphy, Joseph Meboe, Paul Bassewitz, Grace (Clem) Kammer, Ellen (Sexton) Olson, Mae O'Donnell, Eleanor Waskow, Phyllis (Nelson) Butz, Richard Shannon, Leonard Robbins, Robert Mayer, John Nickelson.

Bottom row: Kenneth Knudtson, Charles Schmidt, Gilbert Horn, Norman Franken, Richard Jubelirer, Dean Middleton, Leland Friedrich, Dr. Evans, Clayton Wheeler, John Nebel, Miles Thomley, Andrew Dwyer, Bernard Hulbert. Left corner: Harold Youngreen. Absent: Donald Willison and Donald Prasser.

Class of 1951

Top of picture (L. to R.): Robert Fransway, Thomas Garland, Laurence Giles, Louis Pfeiffer, James Price, Walter Shapiro, Calvin Stuessy, Edward White.

Top row (L. to R.): Charles Fox, Gerald Gredler, Lloyd Calvy, Charles Arendt, Clifford Lardinois, Clayton Weston, Lowell Smythe, Don Janicek, Harry Thimke, Alfred Herlitzka, William Niilsen, Sam Perlson, Curt Macfarlane, James Harris, Robert Samp.

Second row: Thomas Henney, DeVerne Vig, Herman Unley, David Vig, DuWayne Block, Andrew Vrabec, Paul Bower, Lyle Olson, Helen Klevickis, Elvin Bremer, Joyce Eisenbraun, Leo Harkavy, George Zwicky, Samuel Ferguson, Phillip Hardie, John Tousaint, Herman Tuchman, Thomas Daley, James Warrick, John Baier.

Third row: Harold Ibach, David Freeman, James Schroeder, Abe Sosman, Alice McPherson, Paul Ambro, Carol Bahcall, Jerome Cornfield, Edgar Auerswald, Ralph Bennett, Allan Leong, Burton Smith.

Fourth row: Dean Plzak, John Allen, Vaughn Demergian, Ann Fred, Audrey (Straka) Huckaby, Kathleen Motelet, Rita (Grant) Newman, Charlotte (Cohen) Stern, Helen Gruhl, Edna Cree, Donald Schuster, George Lerner, Nathan Hilrich, John Thompson, Hugh Davidson, John Brown, Wilfred Janney.

February 20 Milwaukee Meeting

Pictured above is a section of the Alumni group meeting in the University Club in Milwaukee, February 20. The Alumni Association is fortunate in that so many loyal Alumni from Milwaukee, various sections of the state and contingent states regularly attend Alumni affairs.

Perhaps you recognize **Edward A. Bachhuber**, '37, Associate Dean of Marquette Medical School. He is seated in the lower right corner and next to **A. J. Jurishica**, '37, and directly across from **Richard Muenzer**, '38. Farther up the table **Harold Coon** (white hair) listens to **Frank Weston**, '24. Dr. Coon is now Superintendent of the Milwaukee County Hospital. Others, identifiable include: **Rhoda Johnson**, '54, and **F. W. Madison**, '24.

The Race for the Library . . .

Last year the Silver Anniversary Class—1935—established an enviable record.

Setting themselves a high goal they resolved to lead all classes in total amount given to The Library Fund, highest percentage of contributors and average size of gift. They achieved their goal and are still comfortably ensconced in the vanguard.

The reuniting classes, as well as many other classes, are hard at work in securing contributions for class gifts to the Library Fund and the current leaders may be dislodged from one of the categories of leadership.

Here are the positions of the leaders as we go to press:

1935	\$14,447	1943	\$9,679
1933	12,510	1930	9,140
1936	10,785	1937	7,445
1932	10,675	1952	7,227
1934	9,868	1946	7,075

ALUMNI DAY

May 19, 1961

SERVICE MEMORAL INSTITUTES AUDITORIUM

8:30 Registration

Room 209, SMI

MORNING PROGRAM—President Mischa Lustok, presiding

9:30 "Electron Microscopy:
An Approach to the Understanding of the Cell
Ultrastructure and Function"
David Slautterback, M.D.
Assistant Professor of Anatomy.

Auditorium

9:50 "Problems in Pulmonary Emphysema"
John K. Curtis, M.D.
Clinical Professor of Medicine

10:10 "A Report on University Hospitals"
Edward Connors, M.H.A.
Superintendent, University Hospitals

10:30 Intermission—Coffee

10:45 "The Control of Complete Heart Block by Use of an
Artificial Pacemaker and a Myocardial Electrode"
Vincent Gott, M.D.
Assistant Professor of Surgery

11:00 "Advances in Detection and Therapeusis of
Cervical Cancer"
The John W. Harris Memorial Lecture
Milton McCall, M.D.
Chairman, Department of Obstetrics and Gynecology
University of Pittsburgh School of Medicine

11:30 "Plans for the Medical Library"
Miss Helen Crawford, B.S.
Medical Librarian

11:50 Business Meeting—Election of Officers

12:30 Luncheon

Hospital Cafeteria

AFTERNOON PROGRAM—Dean John Z. Bowers, presiding

2:00 "State of the Union Message"
John Z. Bowers, M.D.
Dean, Medical School

Auditorium

2:20 "Surgical Treatment of Peptic Ulcer in Private Practice"
David W. Ovitt, M.D.
Class of 1936 Speaker
Milwaukee, Wisconsin

2:40 "Dynamic Boundaries of Preventive Surgery"
Jonathan E. Rhoads, M.D.
John Rhea Barton Professor of Surgery
University of Pennsylvania School of Medicine

3:30 Adjournment

— E V E N I N G —

6:00 Cocktails, Banquet and Dance
East Side Business Men's Club
3735 Monona Drive

The evening program will feature the awarding of the Medical Alumni Citation and the Emeritus Faculty Award, the presentation of Alumni Association membership cards to the senior class, and the installation of the newly elected officers of the Association.

Conrad A. Elvehjem, Ph.D., President of the University of Wisconsin, will be an honored guest.

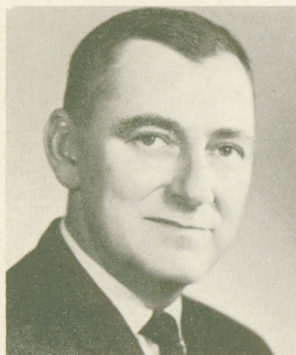

Silver Anniversary Class Reunion

A cooperative effort by **Marvin Steen** and **David Ovitt** promises to provide a Class Reunion worthy of a Silver Anniversary for the Class of 1936.

Enthusiasm for the reunion has reached a point where if acceptances continue at the present rate, the Class Reunion should have a total enrollment of close to 70%.

Distances seem to be no deterrent to the class determination to make the reunion a tremendous success. **Mrs. Eugenia (Murphy) Vanderwilt**, in the practice of Pediatrics in Everett, Washington, is enthusiastic about returning. California will be represented by **Harvey Raszkowski**, now practicing Surgery in Lynwood and **Eugene P. Adashek**, in General Surgery, Beverly Hills. **John Robinson**, Chief Pathologist in Laboratory Service at the V.A. Hospital, promises to return from Lake City, Florida, and many more from these and other areas will be present when the day rolls around.

Dr. Ovitt has accepted the request of his classmates to represent them as Class Speaker on the Alumni Day program, May 19. His subject is "Surgical Treatment of Peptic Ulcer in Private Practice." He, too, is in general surgery practice, but in Milwaukee, Wisconsin. The class of 1936 seems

to have concentrated on surgery.

Arrangements for the reunion are being handled by Dr. Steen, now in, you guessed it, the general practice of Surgery in Oshkosh, Wisconsin.

The evening program for Pre-Alumni Day festivities on May 18 will consist of the Class Dinner at "The Embers," a good dinner club near to the Holiday Inn where arrangements will be made for Alumni to stay, if they so desire. A cocktail party will be held prior to the dinner. No formal program is being arranged—just a good time consisting of the usual "bull session" and impromptu entertainment by the talented members of the class.

Class of 1936 you are urged by Drs. Steen and Ovitt to "stand up and be counted" on Alumni Day.

Ad Hoc Committee On Medical School Procedure

A seven man committee of the faculty has been elected to study Medical School policies and procedures. The members include **Drs. James Crow**, Chairman of Medical Genetics, **Harold Deutsch**, Professor of Physiological Chemistry, **John Juhl**, Professor of Radiology, **Otto Mortensen**, Associate Dean and Chairman of Anatomy, **Van R. Potter**, Professor of Oncology, **James Price**, Professor of Surgery and **Duward Walker**, Professor of Medical Microbiology.

The stated scope of the study is to "review, define, interpret and codify the procedures employed by the faculty, departmental chairmen, executive committee and the Dean in the administration of the Medical School within the University by-laws." The committee has already addressed itself to the problems of membership in the legal faculty and procedure for appointment of departmental chairmen.

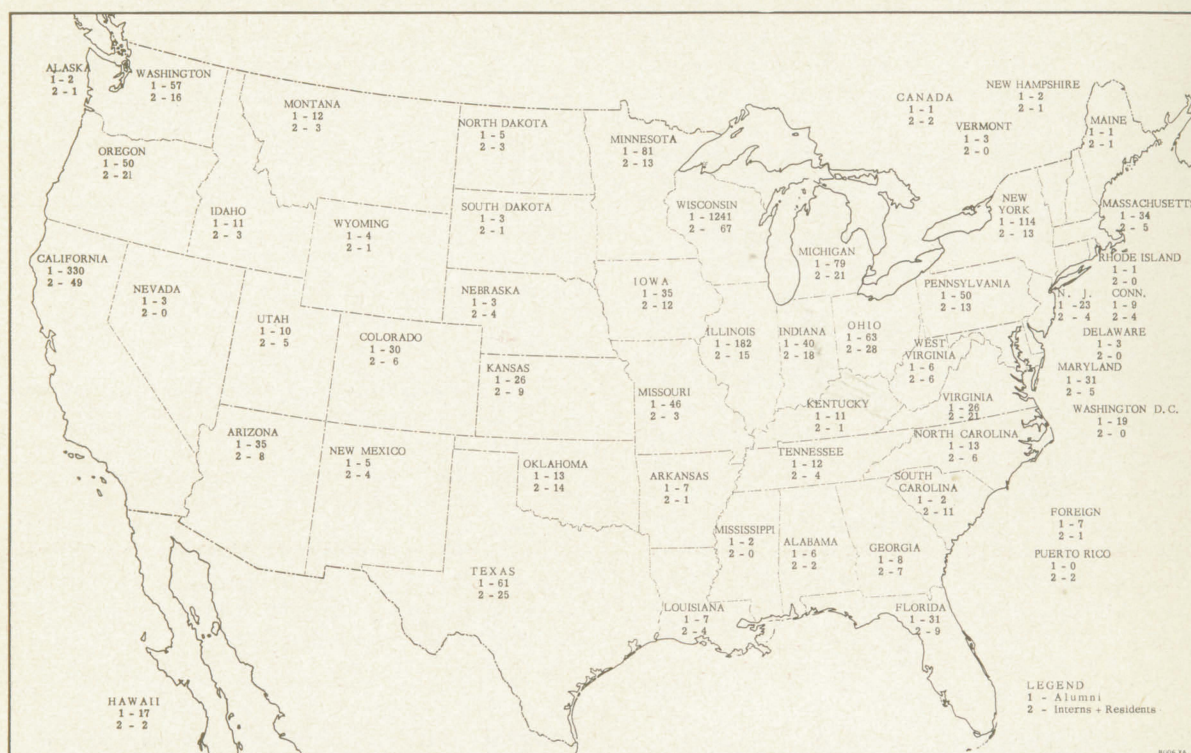

Election of the committee is an outgrowth of a stalemate reached over the appointment of a Chairman for the Department of Surgery to replace **Dr. Erwin Schmidt** who will retire on June 30, 1961.

Under University regulations the departments may recommend by ballot and the Dean appoint a Chairman after consultation with the President. The Department of Surgery recommended **Prof. A. R. Curreri** but the Dean and his advisory committee of 5 department chairmen urged an outside appointment. As we go to press the deadlock still exists.

Distinguished Visitor . . .

One of the nation's outstanding physicians, **Dr. Joseph C. Hinsey**, Director, New York Hospital, and Professor of Neuroanatomy, Cornell Medical Center, was a recent visitor to the Medical Center when he delivered the annual Stuart Graves Memorial Lecture. The lecture, sponsored by Nu Sigma Nu Medical Fraternity, was entitled "Activities of Medical Education." Dr. Hinsey served as President of the Association of American Medical Colleges in 1950 and was an original sponsor of the Advisory Council of the National Fund for Medical Education.

State Distribution of Wisconsin Medical Alumni

Cities of Alumni Concentration

Madison, Wisconsin	308	Wausau, Wisconsin	28

Send to: Alumni Day Reservations, 418 N. Randall Ave., Madison 6, Wisconsin

Medical Alumni Luncheon at A.M.A. Meetings, June 27, 1961

Dr. Robert Turell, '28, has made arrangements for a luncheon meeting of the Wisconsin Medical Alumni in New York City at the time of the A.M.A. meetings, June 25-30.

The luncheon will be held Tuesday, June 27 at 12:00 noon at the Barbizon-Plaza Hotel, 106 Central Park South (not far from the Coliseum.) Tickets at \$6.00 will

be on sale in the Alumni Registration area of the A.M.A. at the New York Coliseum or by advance registration at 418 N. Randall Ave., Madison, Wisconsin.

Dean Bowers and other faculty members will be on hand to greet the Alumni and tell about the Medical School and the University.

Please reserve _____ tickets) for the June 27, 1961 luncheon, Barbizon-Plaza Hotel, New York City. Enclosed find check for \$_____.

Address

ALUMNI CAPSULES

Announcement is made of the birth of a son Eric David delivered by the father, to **Dr. and Mrs. Arlan Rosenbloom**, on December 17, 1960, at the Medico Hospital they have been in charge of in Kratie, Cambodia for the past nine months. They now have left for Kuala Lepis, Malaga, to work in another Medico Hospital.

Dr. Harry K. Purcell, '37, is now in India, serving as surgeon at a Catholic Hospital in New Delhi. Prior to leaving for India Dr. Purcell was an Associate Professor at St. Louis University Medical School. In addition to his surgical work at the missionary hospital, he will set up a training school for native physicians and nurses.

Dr. and Mrs. R. J. Bryant, '57, attended the Pan-Pacific Surgical Association Congress in Honolulu, Hawaii this fall.

Dr. A. H. Heidner, '13, was honored by a unanimous resolution adopted by the

Congress of Delegates of the Wisconsin Academy of General Practice in Milwaukee. This is the first time the organization has ever passed a resolution commending one of its members in the 13-year history of the group. He was honored for his service both to the people and the medical profession of Wisconsin.

Dr. Kenneth A. Elsom, '27, has been named to the newly-created position of Medical Director at Scott Paper Company, Chester, Pennsylvania. Dr. Elsom may be remembered as a Student Instructor in Physiology in 1925. He will also maintain his association with the University of Pennsylvania Hospital, where he will continue a research project involving health examinations for executive personnel.

Dr. A. A. Quisling, '30, former President of the Alumni Association, was recently elected a member of the board of Directors of the

Wisconsin State Chamber of Commerce.

Dr. M. Ly Lehtmetts-Susi, '55, has recently finished a residency in Obstetrics and Gynecology at Philadelphia General Hospital and is now in private practice in Chester, Pennsylvania. Her husband, Heino Susi is doing research in Physical Chemistry with the Research Laboratory of the Department of Agriculture, U.S.A.

Dr. Sanford Mallin, '57, and Judith Ann Rosenberg of Decatur, Illinois, were recently married. They plan to live in Chicago.

Dr. Richard P. Sabin, '55, has opened an office in Madison for the practice of Psychiatry. Dr. Sabin was an Air Force Medical Officer after graduation, then took a residency at the University of Wisconsin and has been associated with University Hospitals Department of Psychiatry.

Dr. Wm. H. Nicolaus, '57, of Milwaukee, became asso-

ciated in general practice in Medicine in Menasha following a tour of military duty. He was assigned as Director of Base Medical Services the past two years with the Air Force in Nevada.

Dr. Harry A. Waisman, '47, University of Wisconsin Medical School, was recently awarded a grant by the Leukemia Society, Inc. to continue his study on "Enzyme Studies Related to Amino Acid Metabolism in Leukemia."

Dr. Marian A. Jones, '58, is completing a two-year residency at Milwaukee Childrens Hospital in Milwaukee and plans to go into private practice in Billings, Montana in June.

Dr. Roswell Fine, '48, of San Rafael, California, hopes to return to Madison this summer for the first time since graduation.

John Weber, 55, has completed a Fellowship in Radiology at the Mayo Clinic and moved to California, but we have been unable to determine what city. How about some news, or at least an address.

A native of Green Bay, **Clifford Lardinois**, '51, has moved to Janesville, Wisconsin, where he will be associated in Pathology at Mercy Hospital. Dr. Lardinois has been in San Antonio, Texas,

Faculty in the News

Dr. Van R. Potter, Professor of Oncology and Assistant Director of McArdle Laboratories, was recently awarded the 11th Annual Bertner Foundation Award at the 15th Annual Symposium of Fundamental Cancer Research at the University of Texas M.D. Anderson Hospital and Tumor Clinic. He is the first biochemist to win the award made annually to "a physician or scientist for having made an outstanding contribution to some field of cancer research."

During the past seven years five members of the Medical faculty have been selected for Markle Scholarships. **Dr. Oliver Smithies**, Assistant Professor of Medical Genetics, is the latest to join the group. Dr. Smithies has developed a reliable new analytical method of study of problems of blood fractions.

Dr. Dallas Clatanoff, Assistant Professor of Medicine, has joined two other Medical School faculty as the recipient of a Lederle Medical Faculty Award. Dr. Clatanoff's work in the field of coagulation and throm-
following service in Japan and Korea.

bosis has been supported for the past three years by a grant from the Oscar Mayer Foundation of Madison, and has contributed much to the advancement of knowledge through medical research.

Dr. Harold P. Rusch, Professor and Director of McArdle Memorial Laboratories, has accepted an invitation from President Kennedy to participate in a conference on heart disease and cancer. The purpose of the conference is to evaluate certain aspects of the present knowledge of these diseases and to recommend general courses of action which will eventually result in improved methods of treatment.

Dr. James Price, Professor of Surgery (Cancer Research Hospital) left March 13 to present a paper on "Studies on the Etiology of Bladder Cancer" at a Symposium on Bladder Cancer in Cairo, Egypt, where he met with a former Project Assistant at the Medical School, Dr. A. M. Pamukcu, now Chairman of Veterinary Pathology at the University of Ankara, Turkey. Dr. Price and Dr. Pamukcu have collaborated on a study of the prevalence of bladder cancer in cattle in Turkey.
