Major - Minor

Dr. John B. Ellery
Vice Chancellor
University of Wisconsin-Stevens Point
Stevens Point, WI 54481

Dear John:

I am responding on Don's behalf to your June 15, 1976 submission of a new minor in Women's Studies.

The proposed minor meets the criteria set by the System Task Force for Women's Studies in that it is interdisciplinary, it will have introductory and special seminar courses (to be developed), and it is seen as a program to be taken in alliance with an established discipline. The existing courses which may be taken to fill the 22-24 credit requirement are predominantly social science courses, but are offered by several disciplines.

I am pleased to inform you that Central Administration authorizes UW-Stevens Point to proceed with implementation.

Sincerely,

Bob

Robert R. Polk
Associate Vice President
