Dear Don:

Enclosed are five copies of the necessary documentation for the minor in Women's Studies. This minor was proposed by the Women's Studies Committee and approved by the Faculty Senate to be housed in the College of Letters and Science.

As noted in the proposal this minor consists of 22-24 credits which includes only two new courses. These are introductory and will be developed by the Women's Studies Committee.

This minor will be available to all students in alliance with the major of their choice.

Sincerely,

John B. Ellery  
Vice Chancellor
