

HEADQUARTERS
EASTERN CONTRACT MANAGEMENT REGION
UNITED STATES AIR FORCE
OLMSTED AIR FORCE BASE, PENNSYLVANIA

Office of Commander

21 JUN 1961

SUBJECT: Value Engineering Speaker, Letter of Appreciation

TO: Dr. George L. Haller
Vice President & General Manager
Defense Electronics Div
General Electric Co
Electronics Park
Syracuse, New York

1. This Command wishes to express its appreciation for the splendid service rendered by Mr. L. D. Miles, Manager of your Value Analysis Services organization, as one of our guest speakers at the Value Engineering Conference held in Boston on 7 and 8 June 1961.
2. Mr. Miles' well-established position as a pioneer in creating and developing the value analysis approach and techniques, plus his fine ability as a speaker, contributed significantly to making this conference a success.
3. The conference served as a much required orientation for our regional personnel and was very enthusiastically received. An unusual amount of participation and interest was shown during the question and answer period following each speaker, an indication that the subject was well presented.
4. Again let me say that I am most appreciative of the assistance given this headquarters by the personal participation of Mr. Miles at this conference.
