

# Celebrating Research, Scholarship & Creative Achievement

by UWRF Faculty & Staff

**February 19, 2008**  
**3-4:30 pm**  
**Library Atrium**

*Celebrating  
Research, Scholarship  
And Creative Achievement  
2007*

**Reception  
Tuesday, February 19, 2008  
3:00 – 4:30 p.m.  
Atrium, Chalmer Davee Library**

Sponsored by:  
Chalmer Davee Library  
Office of the Provost  
Office of Grants and Research  
University of Wisconsin-River Falls

 Reception Music performed by Maite Oyarbide-Sanchez and Laura Hanson

***COLLEGE OF AGRICULTURE, FOOD AND ENVIRONMENTAL SCIENCES***

**Adam, Kamal**, Department of Agricultural Engineering Technology

**Funded Grant:**

(In Collaboration with Michael Crotser, Chippewa Valley Technical College and Midwest Organic and Sustainable Education Service.) *Preparing a Workforce of Nutrient Management Planners*. Funded by the USDA Challenge.

**Baker, Bob**, Department of Plant and Earth Science

**Academic Poster:**

Baker, Bob, Kerry Keen, Michael D. Middleton, William Cordua and Stephen Thompson. "A Brief Exposure of Cretaceous Strata and Plant Fossils Near River Falls, Wisconsin. Special Poster-1. *68th Annual Tri-State Geological Field Conference*. University of Wisconsin - River Falls: October 5-7, 2007.

**Field Conference Guidebook:**

Baker, Bob, Kerry Keen, Michael D. Middleton, Ian Williams, and William Cordua. "Paleozoic Stratigraphy to Quaternary Features of the River Falls Area with a Special Trip to the Rock Elm Impact Structure." Guidebook for the *68th Annual Tri-State Geological Field Conference*. University of Wisconsin - River Falls: October 5-7, 2007.

**Boetel, Brenda**, Department of Agricultural Economics

**Funded Grant:**

*A Comprehensive Risk Management Education Program for Midwest Dairy Beef Producers*. Funded by the USDA Risk Management Agency.

**Carlson, Steve**, Department of Plant and Earth Science

**Funded Grant:**

*Capturing Commercial Value of Super High-oil Corn through Molecular Marker Assisted Breeding.* Funded by UW-System, WiSys Inc., and ARG-Wi Technology Assistance Grants.

**Cordua, William,** Department of Plant and Earth Science

**Academic Poster:**

Cordua, William, Michael D. Middleton, Kerry Keen, Bob Baker and Stephen Thompson. "A Brief Exposure of Cretaceous Strata and Plant Fossils Near River Falls, Wisconsin. Special Poster-1. *68th Annual Tri-State Geological Field Conference.* University of Wisconsin - River Falls: October 5-7, 2007.

**Geological Survey:**

Cordua, William, Thomas J. Evans and David L. LePain. *Preliminary Geology of the Buried Bedrock Surface, Pierce County, Wisconsin.* Wisconsin Geological and Natural History Survey, Open File Report 2007-08.

**Field Conference Guidebook:**

Cordua, William, Ian Williams, Michael D. Middleton, Kerry Keen and Bob Baker. "Paleozoic Stratigraphy to Quaternary Features of the River Falls Area with a Special Trip to the Rock Elm Impact Structure." Guidebook for the *68th Annual Tri-State Geological Field Conference.* University of Wisconsin - River Falls: October 5-7, 2007.

**Cosgrove, Dennis,** Department of Plant and Earth Science

**Funded Grant:**

*Effect of Height, Growth Stage, and Residual on Pasture Forage Quality.* Funded by Grazing Lands Conservation Initiative and the Department of Agriculture, Trade & Consumer Protection.

**Crotser, Michael,** Department of Plant and Earth Science

**Funded Grants:**

*Sustainable Agriculture in Western Wisconsin.* Funded by the USDA Challenge.

(In Collaboration with Kamal Adam, Chippewa Valley Technical College and Midwest Organic and Sustainable Education Service.) *Preparing a Workforce of Nutrient Management Planners.* Funded by the USDA Challenge.

**Dolliver, Holly,** Department of Plant and Earth Science

**Journal Article:**

Dolliver, Holly, Kuldip Kumar and Satish C. Gupta. "Plant Uptake of Sulfamethazine From Manure Amended Soil." *Journal of Environmental Quality.* 36 (2007): 1224-1230.

**Hadley, Gregg,** Department of Agricultural Economics

**Funded Grants:**

*Pilot Project to Study a Data Enclave for ARMS.* Funded by the United States Department of Education.

*Returning to the Farm--River Falls.* Funded by the United States Department of Education Risk Management Education Center.

**Hiney, Kristina,** Department of Animal and Food Science

**Funded Grants:**

*Equine Research for Cargill.* Funded by CAN Technologies.

*Breeding Program Grant.* Funded by the Wisconsin Agricultural Growth Foundation.

*Horse Judging Team and Breeding Program Grants.* Funded by the Wisconsin Horse Council.

**Keen, Kerry,** Department of Plant and Earth Science

**Academic Poster:**

Keen, Kerry, Michael D. Middleton, Bob Baker, William Cordua and Stephen Thompson. "A Brief Exposure of Cretaceous Strata and Plant Fossils Near River Falls, Wisconsin. Special Poster-1. *68th Annual Tri-State Geological Field Conference.* University of Wisconsin - River Falls: October 5-7, 2007.

**Field Conference Guidebook:**

Keen, Kerry, Michael D. Middleton, Bob Baker, Ian Williams and William Cordua. "Paleozoic Stratigraphy to Quaternary Features of the River Falls Area with a Special Trip to the Rock Elm Impact Structure." Guidebook for the *68th Annual Tri-State Geological Field Conference.* University of Wisconsin - River Falls: October 5-7, 2007.

**Middleton, Michael D.,** Department of Plant and Earth Science

**Academic Poster:**

Middleton, Michael D., Kerry Keen, Bob Baker, William Cordua and Stephen Thompson. "A Brief Exposure of Cretaceous Strata and Plant Fossils Near River Falls, Wisconsin. Special Poster-1. *68th Annual Tri-State Geological Field Conference.* University of Wisconsin - River Falls: October 5-7, 2007.

**Field Conference Guidebook:**

Middleton, Michael D., Kerry Keen, Bob Baker, Ian Williams and William Cordua. "Paleozoic Stratigraphy to Quaternary Features of the River Falls Area with a Special Trip to the Rock Elm Impact Structure." Guidebook for the *68th Annual Tri-State Geological Field Conference.* University of Wisconsin - River Falls: October 5-7, 2007.

**Olson, Dean,** Department of Agricultural Engineering Technology

**Funded Grant:**

(In Collaboration with Dominic Derricks) *Feasibility of Composting the Waste By-products of Biodiesel Production.* Funded by UW-Stout's Solid Waste Student Research Program.

**Schraufnagel, Stan,** Department of Agricultural Economics

**Funded Grant:**

*Got Profit? Accrual Accounting: An Important First Step.* Funded by USDA Risk Management Center.

**Survey Research Center Working Papers**

**Ramona Gunter, Shelly Hadley, James Janke, Denise Parks and David Trechter:**

"CAFES 2007 New Student Survey Report." *Survey Research Center Report 2007/16:* October, 2007.

"UW-River Falls Dining Services Meal Plan Participant Survey Report." *Survey Research Center Report 2007/19:* December, 2007.

**Academic Poster:**

Ernie, Kathryn. "Choices, Representations, and Strategies Used in Solving Problems in the First Math Content Course." Presented at the National Conference, *Innovations in the Scholarship of Teaching and Learning at Liberal Arts Colleges*. Northfield, MN: February 16-18, 2007.

**Funded Grants:**

(In Collaboration with Erick Hofacker and Laurel Langford.) *Lesson Study: Math 126*. Funded by UW System.

*Signature Pedagogies Project*. Funded by the UW System Office of Professional and Instructional Development.

**Ficek-Swenson, Bernice**, Department of Art

**Artwork:**

Title: *The Promise of Water*. Framed Photogravure Print. 2007.

Exhibitions: *Open Press Gallery*. Denver, CO.

*Camera Lucida, The Road to Somewhere*. Galerie Par-ci Par-la': Lyon, France.

*The "Promise of Water " print belongs to a new series of photogravure images that I started with my 2006-07 Faculty Research Grant. Two prints from this series will be exhibited at the Open Press Gallery in Denver, Co, a fine-art printmaking atelier in March 2008. My photogravure prints are also being exhibited in an alternative photography exhibition, Camera Lucida, The Road to Somewhere sponsored by the Galerie Par-ci Par-la' in Lyon, France, February - March, 2008.*

*Since 1995 I have been exploring the theme of elemental forces of nature, photographing still life materials of stones, ashes, cremated, bones and most recently water. These initial photographs are made into copper plate photogravure prints.*

*I have become particularly interested in active aspects of nature, both regenerative and catastrophic. Elemental materials such as fire and water portray processes of destruction, as well as transformation, suggesting the duality of life and implying a metaphor of deep geologic time.*

*In my new series, "The Promise of Water", I am interested in metaphors of purity / purification, water as venerated source. In the images I have photographed thus far I have arranged smooth white stones on an ambiguous clear ground which is free of specific associations to land, country or time. The stones are separated with water melting or washing over each, implying an act of weathering. Water tears rock, thus becoming soil. Sir Isaac Newton, writing in a book on alchemy suggested all substances could be reduced to water. Since that point, it has been established that*

*substances are reduced to their fundamental parts by water.*

*It is important to me that all my work be resolved using a photogravure technique. A photogravure is a 19th century photographic process which is a technical marriage of the tonality achieved in a continuous tone photograph with the velvety surface of an inked etching. Esthetically I am interested in the physical presence of the ink, that the ink is soft, creating a rich, deep resonance. The imagery is imbedded into the paper surface rather than riding on the surface as in other photographic processes. Photogravure is a difficult and time consuming process but I feel it complements the work technically and supports the metaphor of geologic presence.*

6th Annual Juried Exhibition, First Place, Lemon Street Gallery, Kenosha, WI, USA, 2007.

*Many of my earlier works (1970's and 1980's) had their inspiration from surrealistic images based on a few fantasy figures and their adventures. The initial drawings often resulted into more developed paintings and prints. This particular lithograph is a recent remake of one of those early series in which the dog is looking for its way home (to his master).*

Fish Box  
Low Temperature Ceramics

**STATEMENT: Michael Padgett**

My work has involved figures and bird images as a major theme for well over two decades. These figures are, typically, not meant as portraits, but instead refer to the psychological, and spiritual aspects of being human as well as referring to the human body as form.

Certain experiences have affected me very deeply. My work seeks to express feelings and responses appropriate to the experiences that have formed me and to evoke, from the viewer, empathy with the work. Some of these pieces have explored morbid elements which reflect the dark side of the human psyche. Newer work is characterized by an increase in elements reflecting connection, joy, sensuality and, occasionally, with a bit of whimsy.

Surfaces are intentionally worked to reflect a painterly and/or linear quality with the use of a subdued pallet and subtle glazes. Surface imagery often goes beyond that dictated by the clay form.

Technically the work is a low-temperature clay that has been oxidized in a cone 04 firing. Underglaze stains are sprayed, smudged, and brushed on the surface to achieve the color effects.
