Q-12

Good Evening Dusty:

11 19 82

Eleanor and I are just ready to leave Sedgefield in the morning for another Super Trip. We'll be thinking of you.

In April as I told you, it appears that we'll be going to Brazil to break a little ice there. The very superior gentlemen there, a director of one of the large companies, has indicated that they'd like me to identify some visual aids which they can arrange for between now and then, to help in getting the basic concept across.

They have the one on "VA work at the Post Office" which he didn't believe was the best available. I'm out of touch Dusty. Can you identify for me two or three which would produce some preliminary good thinking and get across a few good solid concepts in our basic VA/E system. It is my belief that they would buy them and lay some ground-work for my visit.

Your judgement on two or three one at least - would be greatly valued.

Looking down the road, does it happen that you have taught a brilliant person - who has developed expertise, and who also speaks Portuguese?

Best to you all,

Back about Dec 7 to 10.

Barry and Eleanor

DEADLINE

only if they UNDERSTAND
A SOUTHERN DRAWLLL!
