

USEFUL QUOTATIONS

If you know all of the answers, you haven't asked all of the questions.

It isn't what a man doesn't know that makes him ignorant but the things that he does know which are not true.

Four people five weeks worked on four models of tubes saving \$685,400 which was a ten to twenty-five per cent reduction. \$210,000 was in effect within thirty days. The return on the cost was \$20 for each dollar spent. In another project, two four-man teams were used four weeks. The goal was thirty per cent lower cost, accomplishment was thirty-two per cent lower cost.
