Mr. Lawrence D. Miles  
Manager, Value Service  
General Electric Company  
One River Road  
Schenectady, New York

Dear Larry:

As a member of the Production Engineering Forum Program Planning Committee, and organizer of the Value Engineering Forum, I wish to extend the thanks of SAE, ASNE, as well as my own, for the significant part you played in making the 1963 Aero-Nautical meeting a success. I realize that in view of your busy schedule you had to sacrifice personal time to participate in this important forum.

Our program was the highlight of this annual meeting and the highest officials of the SAE have commended me for the magnificent job that was done. Without your participation and enthusiasm the program would not have prospered nearly as well.

Thanks again for your invaluable assistance and I am looking forward to meeting and working with you in the future.

Best regards,

Quentin G. Turner  
Assistant General Manager  
Western Center
