January 28, 1956

Dear Larry

Thank you for the very friendly note which you <sup>wrote</sup> me when you learned of my intention to retire from active service with the Company. It has been a satisfying experience to be associated in business with you and so many other fine people.

You know that I am especially interested in the magnificent contribution you make to the Company's progress with your Value Analysis. I keep up the good work as you requested I have signed the enclosed note.

kindest regards, Larry -

Nick.
