

Sedgfield

Takehiko Tanaka
Hiroshima, Japan.

Dear Takehiko;

As we make plans to come to Beautiful Japan again, after 5 years, happy associations with you, and through arrangements made by you fill our minds.

Last evening Eleanor and I again lived the great experience by slowly, thoughtfully, and with lots of comment, going through the tremendous pictures you sent us, of warm and exciting experiences.

We started again in early morning, had breakfast on the rock of the brook, saw so much, so much, so much on the way to Hag. Enjoyed tea with the delighting merchant. Saw them feed the fish, etc.etc.etc.

Then we went again to the "walking bridge", and saw the spectacular cressanthemum show. We went again to the beautiful Mia Jima and remembered how you had even provided us with umbrellas, and how you let me have the ride home on the "street car".

How great was the day we had with you and your darling wife Etsuko! And what a treat it was to visit your beautiful home, and to walk through your delighting garden.

We have so often thought of, and spoken of our fine friends with Mr Oguri, Mr Kitamura - and Mrs Kitamura - and Dr Nii.

The warm and enduring experiences which you provided to us during our first visit to Japan cause us to prepare for the second with high anticipation.

Affectionately,

Larry and Eleanor Miles
