

August 10 1974

Jack Prendergast
426 Franklin St
Schenectady, NY 12305

Dear Jack;

It was real nice to hear from you, and thoughtful of you to send the mementoes of Harry. Thank you.

Yes, I well recall when I "discovered" you in Utica, and saw that you had a high amount of the talents and skills and qualities needed for high success in the Value Analysis task. It has been with pride that I've heard of your successes since that time.

I hope that, at this time, when increased output effectiveness by mental "workers" is as vital as ever, or more so, that you are having large opportunity to bring benefits to lots of business and organizations by the use of our system.

Life is very good for Eleanor and I. She is a person who generates happiness.. She is a doer. She enjoys her life, and makes mine next door to "heaven".

We live on a delightful little 3 acre "farm", on the water front, on the Tred Avon. Our cruiser Duke is at our door. We enjoy wonderful neighbors, mild Maryland weatser, crabbing, fishing, and cruising. We enjoy also oysters and clams waicha are in abundance.

At the moment, I am typing "afloat". Eleanor and I are on a three day cruise down the Tred Avon, through Knapps Narrows, up north around Tilgaman Point, into the Wye rivers. We have cruised up the Wye East River, across the Wye Narrows to the Wye river, up, and now down the Wye. We drop anchor in pleasant coves for the night. At the moment we are in the cove right north of Drum Point on the Wye. Its 7:30 am. Full sun, and blue sky. 3 knott breeze. Duke swings about 60 degrees at anchor. A dozen boats are in view. 1/3 of them crabbing.

Our best wishes to you and your wife,

Larry and Eleanor Miles
