Mr. H. L. Erlicher  
BUILDING #2

Our Appliance & Aircraft Control Committee would like to take this opportunity to express our sincere appreciation for the splendid work which Mr. L. D. Miles has been doing for us in our cost reduction work. His work on a number of our control devices has spearheaded what we are sure will be an extremely important cost reduction program on our line.

Any time this kind of overhead in your operations begins to cause you to lose any sleep, please let us know.
