Washington, D.C. 20020

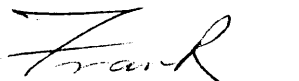

Dear Larry:

Many thanks for your letter of August 25th, requesting permission to quote from our 1969 Proceedings and the June, 1969 SAVE Communications. Permission is herewith granted, and the credit lines will be appreciated.

I have asked George Weeks to send you a complete documentary on the use of VA in Hospital Administration. He and Dave Cooper, his co-author, are putting together a SAVE Technical Manual on this subject, and we hope it will be available at NBO by November.

I notice that AIIE lists your book for sale at their Headquarters, with a slight discount for their members. How can we make a similar arrangement with McGraw-Hill so we can offer it for sale through NBO? Perhaps you can tell us who to contact to start negotiations.

Best personal regards,

Frank J. Johnson
