March 24, 1980

Please give this your immediate attention. At the International Conference in Dallas we will begin two efforts to increase the communication among CVS's:

- A CVS Meeting
- A CVS Directory

Of interest to all CVS's is the CVS Directory. Enclosed is a form for your entry in this directory. Please complete this form as soon as possible and return it. All forms received by May 1 will be assembled into a book, photo copied and distributed at the Conference. They will be mailed to all interested CVS's who do not attend and will be available to all interested parties through the National Business Office.

We foresee an annual updating, possibly with more types of information each year. It will be each CVS's responsibility to keep their entry current.

The second item of interest is the CVS Meeting. We are arranging with the Conference Committee for a scheduled time and place for a meeting of all CVS's. The current plans call for a meeting on the afternoon of Tuesday, May 13. Agenda items would include Certification and Recertification policy and an effort to tap the experiences and abilities of all CVS's for ideas for improvement of the Certification Program.

We will end with some sort of social event to extend your opportunities to meet other CVS's.

Please, complete and return the enclosed form as soon as possible. And make plans to attend the CVS Meeting on Tuesday afternoon.

If you have any questions or suggestions, please contact me.

Christopher M. Barlow, CVS
Secretary, Certification Committee
