

75-6

Sep 18th 1975

Dear Sir: *Lawrence Miles;*

I am pleased to inform you that the Society of Japanese Value Engineers has mapped out a plan to hold its 8th National Conference in Tokyo on October 14th and 15th of this year.

A copy of the program is enclosed herein for your information. I might add that this is yet a tentative one and therefore addition can be made.

We are hoping that some members of the Society of American Value Engineers will honor us with their participation in the Conference to present their papers. I firmly believe it will greatly increase the significance of the Conference.

On behalf of SJVE, it gives me great pleasure on this occasion to extend invitation to you. If, fortunately, you will be able to attend, we shall greatly appreciate your notifying us to that effect as soon as possible, together with the subject of your paper for presentation.

I must apologize for the delay in sending you this letter, owing to various circumstances in the preparation for the Conference.

I am looking forward to hearing from you.
