

I hope you received the original print of this letter, in spite of its incomplete address. Being in doubt, I send to you this copy with, I guess, the right file post. No doubt that, if you answer favorably to my invitation, our association (A.F.A.V.) will be privileged to have you and Mrs Miles, naturally free of any inscription fee to the occasion.

Yours, as from the beginning of my discovery of V-A, very very friendly

Mr. and Mrs. L.D. MILES

JANUARY  
Paris, October 19, 1979

Dear Mr. and Mrs. Miles,

First I would express my most friendly consolation in front of the untimely loss of your son Robert, which I just resent at reading Interactions December '78. I remember the day when, being in Washington D.C. in 1968 and asking for you, I had him on the phone.

As you may know, we have founded, in June 1978, a French V.A. Society, named A.F.A.V. (Association Française pour l'Analyse de la Valeur). Our first sizable manifestation will be a Congress, March 29 and 30, in Paris (program enclosed).

I should be, personally, greatly happy if you - and perhaps Mrs. Miles - could participate, to have you for some dinners at home, the same place where we hosted you, my wife, I and my children, in 1962, and perhaps for some entertaining tours in Paris and surroundings during the following week-end.

Anyway, I present to both of you my best wishes for this new year, enjoying to have some notice from you, mainly if I can help you to plan your stay in France.

Respectfully and heartedly yours,

G. GOUZE

Enclosed : Program
