Mr. L. D. Miles  
DEPARTMENT

On Tuesday, I was talking to Milt Rome.

As near as I can quote him, he said, "As far as I am concerned, the Value Analysis Seminar is the best program that I have ever attended in the company. There has never been anything like it. It has changed my whole way of thinking and was the best thing that has ever happened to me. The year after I came back from the seminar I saved \$175,000. The following year I had a different job and was able to save approximately \$100,000. This year I have another job, Quality Control, and have a budget of \$5000 but it looks like I will save \$10,000."
