

NORTH HOLLYWOOD. . . January 13, 1959. . . L. D. Miles

Luncheon with Manager Bob (?) Paige (?)

Government business 1958 gave them good record
Commercial business down a little.

Saw through plant - military work mostly now in process

Meeting dozen 2-4

Measuring value coming

Function keystone

Evaluated functions standard

Evaluated many functions

(Come hard and slow but they got hang of it fairly well)

Showed them just a little about BFVS

Bob would like to have the BFVS we havenow.

Should have write-up on "how to use" for him.

Didn't get into value control but told them

It is coming

Would use "function tree"

All functions evaluated.

Measure value deviation all stages - before design thru mfg.
