Professor Masakazu Tamai;

I was so pleased when I learned that you presented my thinking to the 10th annual conference of the SJVE. You understand english so well, you would know what I was trying to say. You understand the subject so well, you would correctly interpret every meaning. And I'm sure you communicate to your peers so effectively, that my thoughts came through.

Thank you for the friendship expressed in your letter of Nov. 8.

I would say that the facts surrounding my health are all optimistic. I made a summary of them and sent it to Akira Kodama with the request that he send a copy to you.

With Warmest Regards,

Larry Miles

Dear Mr. and Mrs. Miles:

It was very disappointing for me and all your Japanese friends to know that you could not come to our Annual Conference because of your health condition.

For the protion of your scheduled presentation, I took the liberty, with a feeling of honor, of introducing the context of your manuscripts to the audience, and I was glad I could do the important job for you.

Could we hear from you or Mrs. Miles about what your trouble was, how you are recovering to your normal health, and so forth? Please feel free to let me know if there is anything we can do for you. Incidentally, I had to undergo an operation for cholecystitis (a gall trouble) this spring, and I am doing all right.

As the Value Awareness among Japanese industrial people is more and more growing, I and all SJVE members keep looking forward to your early recovery and for a next chance to visit Japan. Please take good care of yourself.

With the best of our sincerest wishes,

Very sincerely,

Masakazu Tamai
