Schenectady, November 9, 1950

Mr. L. D. Miles
Purchasing Dept.
Building #2

No doubt many of those attending the Production Managers - Order Service Managers meeting at the Edison Club on November 1 told you how much they enjoyed your talk. It was really well done and gave those present much to think about insofar as purchase analysis and value analysis are concerned.

We are particularly glad that you included the presentation on value analysis, since it added a different note to the program.

Thank you again for the fine job you did for us.
