Mr. L. D. Miles
Manager-Value Analysis Service Unit
General Electric Company
Building 32 G, Schenectady, New York

Dear Sir:

The Southern Tier Section of the ASME wishes to convey it's appreciation and thanks for the interesting presentation on Value Analysis by your Mr. Harold Coughlin at our dinner meeting last March, at Endicott, New York.

The group of approximately 70 Engineers from Elmira, Corning, Ithaca, Athens, Binghamton and Endicott found the talk and examples of value analyzing very thought provoking as well as informative. The question period disclosed that many good ideas for cost reducing products were evolved in the audience and that a session such as this can be very beneficial.

Again may we thank your company, General Electric, for furnishing so interesting a speaker and topic.

Very truly yours,

Fred L. Vichich
