

49-19

Schenectady, March 8, 1949

Mr. John H. Smith
General Electric X-Ray Corporation
4855 W. McGeoch Avenue
Milwaukee, Wisconsin

Dear Mr. Smith:

We attach copies of a report covering the same parts which were reported to you in tabulation form the other day. The tabulation was issued hurriedly to provide the information for which we knew you were waiting. The standard form of report allows space on each page for suitable notation as your work progresses on each item and it further provides us the opportunity of sending supplementary information which is bound to continue to arrive affecting some of the parts.

Please note part #11-1527. On this part, a quotation of 45¢ per C in lieu of the 76¢ per C which was reported in our preliminary schedule has now been received. A copy of the quotation is in the hands of Mr. Adams.

Very truly yours,

GENERAL ELECTRIC COMPANY

L. D. Miles
