

CONSTRUCTION MATERIALS DEPARTMENT

GENERAL ELECTRIC

Bridgeport - January 21, 1949

Mr. Larry Miles
Purchasing Department
Schenectady

All of us want to thank you again for showing your slides, and letting us examine and think a little bit with you about the new problems you have attacked with your group. Naturally, we were particularly interested with the latest addition to the slides.

We are looking forward to your projected visit to take a good look at the Wire and Cable problem in so far as value analysis is concerned, and when you can establish a date please let me know, and I shall make the necessary arrangements.

Chuck
