Mr. E. C. Hovey, Room 165 - Bldg. #2

Thank you very much for the presentation on Value Analysis on Monday morning to the second year class of the Creative Engineering Program.

The material presented and examples to substantiate each point were both very interesting and beneficial. Since the main theme of the second year class is Reduction to Practice, your presentation was further proof that engineers must consult with manufacturing, purchasing, and sales personnel to produce the optimum design.

We are looking forward to hearing your second talk on Value Analysis next Monday, December 4, 1950 from 8:00 a. m. to 9:30 a. m.
