Dear Larry,

Congratulations on the January '64 READERS DIGEST article.

You are given so much well earned credit. You and Helen should be very happy about this.

It would certainly be fine, after you retire, to give a little bit of your Value Analysis Technique study to improving the value and efficiency of our many, present-day church activities.

What an opportunity. I expect you may do this, too.

Again, congratulations,--- let's get together again and do something.

Sincerely,

George E. Mullin, Jr.
