SCHEENECTADY, February 8, 1954

Mr. R. Fountain
BUILDING 32-G

As usual, your talk to the ATC-2 class here in Schenectady on February 5, was excellent. A presentation such as yours always seems to be better when there are a lot of examples to be shown and passed around the class. Your frequent use of gentle humor made the presentation of an essentially dry subject very stimulating.

Thank you for you talk, Mr. Fountain, I hope that we may call upon you again in the future.
