**Mr. Earl H. Kittle  
Value Analysis Service  
Building 32-G, Room 200  
SCHENECTADY**

**Dear Earl:**

Before the meeting gets too far behind me I wanted to write and thank you for the very splendid job you did in addressing last night's meeting of the Bridgeport Chapter of the Society for the Advancement of Management.

Comments heard later indicate that your talk was very well received. Those who attended were very enthusiastic about the delivery and your enthusiastic and interesting treatment of this new philosophy of value analysis.

You certainly came through and helped preserve the good name of General Electric here.

It was a real pleasure meeting you and having the honor of presenting you to your first Bridgeport audience. I hope we can work together again in the future.

Very sincerely,

Kenneth A. Maloney

*Larry — many thanks  
for suggesting Earl —  
He did very nicely!  
Ken.*
