DATE _____ SUBJECT _____

For the past three weeks I have been very busy working on a 2 hour presentation which the Society of Japanese Value Engineers asked for for their annual meeting in Tokyo.

I will be giving that in Tokyo on 10/24 /72. Then I will be giving at least three other presentations in industries or industry groups in Japan.

It would be great if this would stirr up enough appetite, along with the other good sales arrangements of your company so that they would want to translate the book.

I'll return about mid-Nov. Then will get to work on some examinations, courses of study, etc as well as some other work to accelerate the movement of this much needed book.

Sincerely,

Larry Miles
