Dear Charley;

I'm sure you have heard that SAVE is putting forth a large effort to certify competent VE people. I have done a lot of work to get an examination which will show whether or not an applicant really possesses knowledge of the system, and the ability to apply it.

It would be very constructive if you would provide for us a means of determining if he knew and could use your FAST system.

Could you provide perhaps 5 questions, or some problem from which we could get a "yes" or "no" answer about his ability to use it on his job? It would be extremely helpful.

  
Larry
