Mr. Svein B. Hvamb
Bldg. 36
SCHEENECTADY

Dear Mr. Hvamb:

We in the Distribution Assemblies Department are most grateful to you for the stimulation you lent to our attempt to reduce the cost of our new DE Busway system. It was indeed refreshing to watch a master brainstormer at work, and I am sure that the provocative questions which you placed in the minds of the people in Southington will bear considerable fruit.

I am sorry that we held you up and kept you from being prompt at your Lynn appointment, and I hope you enjoyed the delay as much as you appeared to do. We are most grateful for the work that you did and all of us extend our sincere thanks.

Very truly yours,

C. K. Skinner
