Febr. 28, 1978

Mr Akira Kodama, Secretary SAVE
TOKYO

Dear Akira Kodama;

Our warmest Greetings to you and all of our many friends.

Saturday, Febr. 25, and today brought great news to us.

Saturday, Rudy Kempter, our VP SAVE, International told us that you and a group of your associates would be in Washington and vicinity just before the SAVE conference in May.

~~Yeddy~~ had my scheduled examination, 4 months after radiation.

After examination the doctor said, "the prostate gland is absolutely and totally normal". Isn't that great?!

So Eleanor and I, with great joy, invite you and your group to be our guests for the day Saturday May 6. Specifically, we suggest arrival anytime before noon, have lunch with us, and stay and play and work with us at Sedgfield as long as you can, hopefully into the evening.

We are also inviting Rudy Kempter and Glen Woodward, Pres Washington DC chapter of SAVE, and their ladies. We will all benefit from any formal or informal discussions, between individuals or groups which occur.

We are, with highest regards,

cc Rudy Kempter

Larry and Eleanor Miles
