ROYAL HOTEL POST CARD OSAKA, JAPAN.

MAIN LOUNGE.—Chandeliers in the shape of auspicious purple clouds floating on the ceiling, a crystal-clear rivulet flowing through the Hall and stately Pillars with traditional features of gold-lacquer designs on; all these combine to induce quite Japanese atmosphere into the Occidental modernism performed.

Dear Friends —

Word reached me late yesterday here in Osaka that you wouldn't be making the trip - or possibly not. When I got back to Tokyo I'd read the msg. & help them do whatever is necessary should this be their wish. I understand your situation fully. Whatever the needed action to work things out we (Sara) will work out. It is a great experience here receptive, eager, great hosts - We will miss you much if you do dictate remaining home. My love -
