**Brides & Wives / *phyllis goldin***

We are brides singing our song  
To one another we belong  
Some say there's moral decay  
Since we married the other day

Earth is falling apart  
For those convinced that the heart  
Has gone sinfully astray  
For them there is no gray

We are wives bursting through clouds  
We live our lives casting off shrouds  
I'm hers, she's mine  
We're together by design

There are those among us  
Setting rules with which to judge us  
Thirty years it's taken  
To show the world our love's unshaken

Praise my country of birth  
Now defending our worth  
Canada, oh Canada  
You stand on guard for love

We are wives singing our song  
To one another we belong  
I'm hers, she's mine  
We're together by design
