Employment Report 2010-2011 CEPS Graduates	21
Continuing Education 2010-2011 CEPS Graduates.....	22
2010-2011 Graduate School Graduates	24
Historical Summary - 2009-10 to 2010-11 Academic Years.....	26

The data summarized in this report were gathered on-line from graduates of UW-River Falls who matriculated following Fall, Winter, Spring and Summer sessions. Data gathering for Fall 2010 graduates began in February of 2011 and data gathering ceased in October with surveys sent to Summer 2011 graduates. All graduates received an initial mailing and at least two reminders. Non-respondents were included in email requests for information in subsequent surveys. For instance, Fall 2010 graduates who did not reply to surveys sent in February and March of 2011 were included in emails sent in June and July to Spring 2011 graduates. Despite these multiple contacts, the overall response rate was a disappointing 20 percent (263 responses from 1,296 total graduates).

As the following table indicates, this number of responses is expected to provide estimates that are accurate to within plus/minus 5.4 percent for all UWRF graduates.

There was little variation in response rates by College, ranging from a low of 16 percent for COEPS and to a high of 20% for CAFES and CAS. Graduate students responded at a substantially greater rate (29%) than did undergraduates. The following table indicates that the reliability of the estimates at the College/School level is not high and results at the individual program level much less so.

College/School	Graduates	Responses	Response Rate	Confidence Interval
UWRF - Overall	1,296	263	20%	5.4%
CAFES	266	52	20%	12.2%
CAS	479	95	20%	9.0%
CBE	196	37	19%	14.6%
COEPS	177	28	16%	17.0%
Graduate School	178	51	29%	11.6%

Because the response rates to this survey have been relatively weak, in this year's report we have created an additional summary table that compiles survey results for both the 2009-10 and 2010-11 academic years.
